Threatening Mob Dispersed by the Police.

SEVERAL SEVERELY CLUBBED

It Was All the Outcome of a Strike-No One Dangerously Hurt, but Further Workhouse Proposed - Congressional Conventions-Other Ohio State News.

CLEVELAND, July 1.-For nearly a month the strike at the works of the Brown Hoisting and Conveying company has continued with frequent though individual attacks by strikers upon workmen who had taken their places. The police have been patient under the abuse of the idle men, but yesterday for the first time violence was shown the officers, and they dealt the strikers a blow with a heavy hand.

At 5 o'clock in the afternoon 170 employes of the Brown company were marched from the works under the escort of 80 policemen to the car tracks on St. Clair street. A crowd of 2,000 men, women and boys gathered and began hooting and hissing. Two motor cars came along and were signaled to stop, but the strikers yelled "Go ahead, don't stop," and the motormen increased their speed and whizzed by. The police then marched the men in their charge a block further away to a corner and halted for another car, the roaring ground following. Some one in the crowd following. Some one in the crowd threw a big stone, which struck Patrolman Keidel and cut his head

Deputy Chief of Police McMahon then gave a pre-arranged signal and the crowd was given a terrible lesson. Forty policemen swung out into line and the other 40 closed in around the men they were protecting. The first 40, under command of Captain English and Lieutenant Dunn, charged the crowd with riet clubs and they hit to break

Two rushes up the street sent the crowd in that direction flying and left a dozen men lying on the pavement with bleeding heads. Then the police charged twice in the opposite direction and then down a side street, using their clubs vigorously. They scattered the crowd effectually and arrested four of the ringleaders, after splitting the scalp of one of them.

the men stopped the car almost by force and sent their charges away. No one was dangerously hurt by the clubbing, so far as can be ascertained, but there are scores of broken heads. Serious trouble is feared, and a heavy guard of police will be on the ground hereafter.

# CAUGHT IN A TRAP.

A Murderer Confesses to a Woman in the State's Employ.

AKRON, O., July 1.-Just before the state was ready to rest its case in the Cotell trial, Deputy Sheriff Hart was called to the stand, and the most dramatic sensation of the trial was sprung. Hart gave the details of a conversation the previous night between Cotell and a mysterious woman, who has been visiting the prison every day for a week. During this conversation Cotell admitted his guilt, and gave all details of the crime, as in his previous confessions, which he has since repudiated.

The woman has been in the employ of the state, and by bringing fruit and flowers and by various other feminine ways, has secured the confidence of Cotell. Four deputy sheriffs concealed the Herald says: "The Manoa company themselves in the corridor, and the of Brooklyn was organized about 10

PENSION FRAUDS CENSURED.

Violators of the Law Get No Sympathy From the Present Administration.

WASHINGTON, July 1.—The president has always shown a disposition to deal severely with persons who defraud pensioners and otherwise violate the pension laws, and this tendency is well exhibited in his action upon three applications for pardons in such cases, taken jnst before his departure from the capital. These were the eases of Andrew Trouble Is Hourly Feared - A Joint J. Rooks of Georgia, Paul A. Marcellino of New Mexico and Stephen O. W. Brandon of Tennessee, all convicted of offenses against pension laws.

The president denied the application in each case, and his endorsements suf-

ficiently indicate the repugnance he feels for this class of offenses.

In the case of Marcellino, the president writes: "This convict was guilty npparently of nearly all the crimes and frauds denounced by our pension laws. He seems in every way possible to have cheated and swindled ignorant pensioners and imposed on the government. The punishment meted out to him was well deserved and I can not yield to the unthinking and irresponsible appeal for his pardon.

As to Rook's case the president wrote: "This convict personated a dead soldier and through that means procured a pension and robbed the government.
He was justly dealt with by the court and should suffer all the punishment awarded to him.'

The endorsement upon the application for Brandon's pardon reads: "Denied. I am unwilling to pardon those who, in violation of our pension laws overcharge applicants for pensions for the services they render in substantiating their claims.

The president denied applications for pardon in the cases of Meridith, C. S. O. Sullivan, sentenced in Pennsylvania to one year imprisonment for embezzling money from letters, and Daniel E. Tilton, sentenced in New Jersey to one year imprisonment for a like offense.

In his endorsement in these cases, the president says: "The wrongful approprisident says: The wrongful appropriation of public funds by postnasters is growing to be alarmingly common. I can not overleok the fact that in cases of this kind the integrity and safety of our postal service is apt to be impaired to a say of clemency. by an improvident exercise of clemency. Embezzling money from letters entrusted to those employed in the postal service is far too common and, inasmuch as the government must rely very greatly upon the honesty of its employes in this important branch of the public services, In the meantime the police guarding I do not think those convicted of crimes against our postal laws should be pardoned in a case where the sentence is so mederate and the reasons now urged are so Inconclusive."

The president has denied the application for pardon in the case of W. S. Johnson sentenced in Georgia to 18 months' imprisonment and \$1.500 fine and costs for seheme to defrand and fraudulent use of the mails.

MANOA COMPANY OUT OF IT. Venezuelan Cabinet Grants the Claim of as 2,500 feet would have to be timbered. British Capitalists.

NEW YORK, July 1.—A dispatch to The Herald from Caracas says: A special cabinet meeting was held on Friday, at which it was decided that the title of Mr. George Trumbull, representing British capitalists, to valuable iron mines situated near the Delta territory was perfect. This is regarded in official circles as a death blow to the Manoa company.

Commenting on the above dispatch The Herald says: "The Manoa company woman wormed the statement out of Cotell. The woman's identity is being kept carefully hidden. Hart's testimony was supported by the three others.

Of Brookin was organized about 10 years ago. It received a large grant of land in Venezuela, near the territory which is now claimed by the governments of that republic and of Great others.

Only Flfty-Nine Men Imprisoned in the Pittston Mine.

NO DEAD BODIES RECOVERED.

The Rescuers Are Still Six Hundred Feet From Where the Bodies Are Supposed to Be-An Appeal For Funds to Mining Corporations and All Others in the

WILKESBARRE, Pa., July 1.-There are 59 men, living or dead, imprisoned in the depths of the doomed mine. This is the official number and there is no reason to think it incorrect. The wives of five Hungarians declare that their men, too, are in the mine, but this is disputed by the timekeeper, who says that the Huns drew their pay last week and went to Pittsburg to work in the soft coal mines. They simply deserted their families, but their wives will not beineve it.

The pit where the men are supposed to be is still 600 feet beyond where the rescuers are at work. The gas is not so bad as it has been and there is no water flow in the mine. The miners have come across a number of tools of various kinds which had been used by the miaers.

The bore hole which was started in the Clear Spring mine, which adjoins the Twin shaft, to pierce the 100 feet of solid coal between the workings of the two mines, has not proved as successful as was hoped. When the drill was in about 35 feet it struck rock and had to be abandoned.

A new hole was then started. Calculations were made from the maps of both collieries and it was heped that the figuring would be so close as to bring the hole out into the workings of the Twin colliery. A diamond drill is being used and it is estimated that the job will require 36 hours, if all goes well. If, when the hole is drilled through this barrier from the Clear Spring upper no water is found on the Spring mine, no water is found on the other side, the hole will be enlarged so as to admit a man's body and experiments may be made from that end.

If the cave-in does not extend to that end of the mine, rescners will start in from that point. They will have to go at the least calculation about 100 feet to where the men are understood to be. Then they will strike the fall under which the men are and will begin digging. In case, however, that this area beyond the Clear Spring is also affected and "squeezing" the rescuers would not dare venture in beyond the barrier, and to persue the search they would have to begin timbering and propping, as the men on the other side are doing.

this work would have to begin at the conspiracy, and Thomas M. Searcy point where the roof begins to threaten sentenced in Alabama to one year and and the length of time occupied in one day imprisonment and fine for reaching the cave where the men are would depend upon the condition of the slope. If all of the roof is "squeezing" the work would be well night useless.

Superintendent Lawall has addressed a letter to the local press association, requesting assistance in the appeal for funds to mining corporations and all others in the union.

THE NICHOLSON LAW DEFIED. The Hammond (Ind.) Saloonkeepers Will Sell Liquor on Sunday.

HAMMOND, July 1.-The 70 odd saloonkeepers of this city have agreed to disregard the Nicholson law so far as the Sunday closing clause is concerned. Since the supreme court handed down THE DESTRUCTION OF CITIES. its decision 10 days ago, upholding the law, there has been considerable speeulation as to what eourse the saloon men would take, and during all of last week it looked as though they would throw up their hand and cry quits. Promptly at 11 o'clock every night the saloons were elosed and the curtains were drawn to one side, showing to the public that so far as the 11 o'clock elause was concerned it was being obeyed. Not a saloon in town remained open after legal hours, and for one

this respect. The good citizens hoped that this was but the beginning of legal observances, but on last Sunday, however, not one saloonkeeper in 10 obeyed the law. Of eourse, many of the front doors were closed, but in such cases the side curtains were up and the side doors were largely in evidence. Some of the saloon men did not even take the trouble to close their front doors, and at least three saloons on one of the principal corners left their doors wide open and invited the public to enter and patron-

Proposed Program of the Insurgents in Cuba.

Private Buildings and Property Owned by Spaniards Who Are Opposed to the Independence of Cuba Will Be Sacrificed as Well as the Public Edifices Occupied by the Spanish Sympathizers.

NEW YORK, July 1.—The Herald says: Several Cubans who arrived here from Havana on the steamer Saratoga, brought with them copies of a warning circular addressed to Cubans, informing them that during the summer there would be many explosions in the towns of the island, caused by dynamite.

The circular advised all Cubans to abandon the threatened region while this campaign of destruction was in progress. The circulars, in Spanish, were dated June 15, and were printed upon white tissue paper. Many thou-sands of these were said to be in circu-lation in and about Havana when the

steamer left the port.

At the Caban junta headquarters it was said that the destruction of Havana in this way had been under contemplation for a long time, and that private buildings and property owned by Span-iards who are opposed to the independence of Cuba would be sacrificed as well as the public edifices occupied by the

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. They undermine heaith and shatter the constitution and the patient is steadily growing into a worse condition -often resulting in the terrible slavery and misery of the cocame and opium habit. Sleep induced by the use of Hood's Sarsaparilia does not perhaps come as quickiy, but it comes more surely and more permanently through nature's great restoring and rejuvenating channel-purified, vitaiized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life-the blood-pure, rich, red blood.

# Gladness Comes

With a better understanding of the transient nature of the many physical lls which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxetive, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of familles, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal eleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflieted with any actual disease, one may be commended to the most skillful physicians, but If in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
